- The audience are true connoisseurs of quality products and services

Advertising

Run ads on wbpstars.com. We will create an impression-based package based on your budget and goals.

The screenshot displays the wbpstars.com website. At the top, the header reads "wbpstars.com - the best restaurants in the world" followed by navigation links: HOME, REVIEWS, TOP 60, RESTAURANT OF THE MONTH, BLOG, RATING SYSTEM, and FEEDBACK. Below the header is a large banner image of a dish with a yellow star and the text "WBP STARS.COM". Underneath the banner is a white box with the text "ADVERTISE HERE!". To the right of this box, a blue arrow points from a text box that says "You will be visible here". The main content area is divided into two columns. The left column has the heading "We review the best restaurants in the world!" and contains two paragraphs of text about the website's mission and a "Bon appétit!" sign-off. The right column features a sidebar with the wbpstars.com logo, a "Gilla" button, and a featured article titled "La Bastide de Capelongue" with a brief description and a link to the full article.

WBP STARS.COM

ADVERTISE HERE!

We review the best restaurants in the world!

For several years we travelled around the world to discover the best restaurants on the planet, we sent in our food inspectors, we talked with the restaurants guests and we ate, and ate, and ate...

Today the wbpstars.com team has dined at more than 2,500 fine dining restaurants in more than 100 countries and we are now ready to tell you what we have come up with so far. Our quest to find the best restaurants will continue as will our commitment to supply you with the latest information about the best from all corners of the world.

Bon appétit!

Abstract: *Staphylococcus aureus* strains were isolated from the nasal cavity of patients with nasal polyps and compared with strains isolated from healthy carriers. The strains were characterized by pulsed-field gel electrophoresis (PFGE) and by polymerase chain reaction (PCR) using primers for the *stx* and *stx2* genes. The results showed that the strains isolated from patients with nasal polyps were more diverse than those isolated from healthy carriers. The results also showed that the strains isolated from patients with nasal polyps were more likely to be *stx* and *stx2* positive than those isolated from healthy carriers.

Choosing the best

wbpstars.com travels everywhere to keep you updated with the very latest and of course the very best to enjoy our presentation of the world's premium restaurants.

wbpstars.com's Top 60 list is based on the highest rated restaurants right now. It is just as impossible to tell which restaurant is the best in the world as it is to tell which song is the best or who is the best looking.

It is up to every person to decide that, but we present a list based on all our experience with the thousands of restaurants we have been to and we try our hardest to make the list as fair as possible based on the wbpstars.com rating system.

The restaurants are revisited and the list is updated on a regular basis.
